Los Angeles, CA 90012

PARKING: Free parking on site

This training will be taught in **Korean**. ASIST is intended to help participants become ready, willing and able to provide suicide first aid to persons at risk of dying by suicide. During the two day workshop, participants will examine their attitudes about suicide, learn how to effectively recognize and review the risk of suicide, and develop new and/or reinforce existing intervention skills. ASIST also addresses the need to develop a network of providers who work to prevent suicide. Participants will benefit from the two-day ASIST training by gaining skills, knowledge and intervention techniques essential to working with individuals struggling with suicidal ideation.

TARGET AUDIENCE: For both clinicians and non-clinicians who may work or provide services to individuals with suicidal thoughts or behaviors

OBJECTIVES: As a result of attending this training, participants should be able to:

1. Recognize that caregivers and persons at risk are affected by personal and societal attitudes about suicide.
2. Discuss suicide with a person at risk in a direct manner.
3. Identify risk alerts and develop safe plans related to them.
4. Demonstrate the skills required to intervene with a person at risk of suicide.
5. List the types of resources available to a person at risk of suicide, including themselves.
6. Recognize that suicide prevention is broader than suicide first aid and includes life promotion and self-care for caregivers.
7. Identify current suicide statistics and trends among youth in the U.S., California and Los Angeles.
8. Recognize the signs and symptoms of suicidal behavior among children and youth, adults, and older adults.
9. Examine myths related to mental illness and suicide.
10. Identify protective factors to decrease suicide risks and to strengthen families.
11. Apply basic suicide prevention skills and crisis intervention guidelines.
12. Examine cultural competence in applying suicide prevention skills.
13. Recognize how Suicide Intervention Model (SIM) as a tool for meeting the interventions needs of the person at risk.
